Ritik Bansal

DATA ANALYST

Indore, India | +91 9977784574 | bansalritik25@gmail.com

PROFESSIONAL SUMMARY

Data Analyst with 2+ years of experience in SQL, Python, PostgreSQL, Power BI, and operational analytics. Skilled in transforming raw data into actionable insights through data preparation, exploratory analysis, KPI reporting, dashboard development, and query optimization. Experienced in delivering clear, business-focused reporting and collaborating with stakeholders to support data-driven decision-making.

PROFESSIONAL EXPERIENCE

FREELANCE

Data Analyst & Developer | Mar 2026 – Present

- Deliver analytics solutions using Python, SQL, PostgreSQL, and Power BI, including data preparation, exploratory analysis, KPI reporting, and dashboard development.
- Design and optimize PostgreSQL queries and data models to support reliable, reusable reporting workflows and analytical use cases.
- Develop data-driven applications and prototypes using Flutter and API-based integrations, translating functional requirements into practical user-facing solutions.

MASAI SCHOOL

Data Analyst | Sep 2024 – Mar 2026

- Developed Power BI dashboards for student cohort tracking and operational reporting, enabling data-driven decision-making by senior management.
- Optimized complex SQL queries using CTEs and window functions, improving the efficiency of recurring data retrieval and analysis.
- Performed statistical analysis using Python, Pandas, and NumPy to evaluate curriculum performance and learner outcomes, supporting consistently high satisfaction scores.
- Led operational analytics and stakeholder discussions while coordinating a TA team to maintain data quality, reporting accuracy, and execution efficiency.

SOURCX

Data Science Intern | Dec 2024 – Feb 2025

- Developed production-oriented Python and Selenium web-scraping pipelines to extract and structure data from complex websites.
- Automated data collection workflows, reducing manual effort and improving the consistency of analytical inputs.
- Created automated functional web-testing scripts to improve reliability across analytical and application workflows.

EDUCATION

MEDI-CAPS UNIVERSITY

B.Tech. in Computer Science | 8.3/10 | Nov 2023

SELECTED PROJECTS

AI DATA & BI STUDIO | Mar 2026 – Present

- Developed and deployed a Streamlit-based analytics application for interactive data exploration, visualization, and AI-assisted business insights.

Live Demo: AI Data & BI Studio

STUDENT COHORT ANALYTICS & OPERATIONAL REPORTING ENGINE | Mar 2025 – Apr 2025

- Built an SQL and Python analytics pipeline using CTEs and Pandas to analyze grade variance and deliver Power BI dashboards for curriculum and operational reporting.

AI-BASED YOUTUBE SHORTS CONTENT REFINEMENT SYSTEM | Mar 2026 – Apr 2026

- Developed a containerized, n8n-orchestrated workflow using FastAPI, Gemini, HeyGen, and ElevenLabs to automate script refinement, voiceover generation, and visual assembly.

LINKEDIN DATA RETRIEVER | Dec 2024 – Feb 2025

- Developed a Python-based Selenium and BeautifulSoup pipeline to extract, structure, and store LinkedIn profile data in MongoDB as part of the SourceX internship.

TECHNICAL SKILLS

- **Analytics:** SQL, PostgreSQL, Python, Pandas, NumPy, Exploratory Data Analysis, Statistics, KPI Reporting
- **Business Intelligence:** Power BI, Data Visualization, Dashboard Development, Data Storytelling
- **Development:** FastAPI, REST APIs, Webhooks, JSON, Streamlit, Flutter
- **Automation & Data:** n8n, Selenium, Playwright, BeautifulSoup, Data Pipelines, Docker
- **AI & Tools:** Gemini, OpenAI, Claude, LangChain, Prompt Engineering, RAG, Git, Version Control
